15th February 2021**To Whom It May Concern**

This is to put on record the excellent performance of KB International LLC's Slurry Polymer & Additives used for the underground D-wall and Barrette works at Mahakaran Underground Station under Package-UG1 of Kolkata Metro Rail Corporation Ltd. (KMRCL), during the period 2017-2020.

We have successfully completed the following works:

- Diaphragm Wall: More than 90 numbers of Diaphragm wall panels, comprising of 1200 mm thickness, 6m length & a depth of about 33 meters
- Barrettes of 1200 mm thickness and 6m length with depth of up to 54 meter, with the total quantity of 27 Nos.

We have used Polymer Slurry ProCDP and Additives EnhanciT100 and EnhanciT200, with regular and routine technical support provided by KB International LLC & their local dealer, Sugam Infrastructure Limited.

We thank them for the support provided by team KB International and Sugam Infra and wish them the best for future endeavours.

Kind regards

For **Transtonnellstroy Afcons JV**
